

## USER GUIDE FOR QR CODE GENERATION VIA VietQR

**Introduction** Public Bank Vietnam customers can generate current account VietQR code through VietQR's website for the purpose of facilitating fund transfer

### Procedure

#### Step 1

Access the Official Website of VietQR with the address: <https://vietqr.net/>  
The screen to generate new QR code is at the website's homepage:

The screenshot shows the VietQR website interface. At the top, there is a navigation menu (hamburger icon) and a promotional banner for napas with the text: "S2 NGÂN HÀNG THAM GIA MẠNG LƯỚI CHUYỂN NHANH napas 24/7 BẢNG MÃ VietQR". Below the banner is a dark header with the text "Hệ thống tạo mã VietQR". The main content area is titled "Thông tin thiết lập mã VietQR" and contains several input fields: "Ngân hàng thụ hưởng \*" (dropdown), "Số tài khoản thụ hưởng \*" (text input with "0 / 19" character count), and "Tên chủ tài khoản \*" (text input with "0 / 50" character count). There is also a "Tùy chọn thêm" dropdown. A note indicates "\* Thông tin bắt buộc". A checkbox is present for "Tôi đồng ý với các điều khoản và điều kiện". A "Tạo mã" button is located at the bottom right of the form. The browser's address bar at the bottom shows "AA vietqr.net".

*Note: Please input the VietQR website address exactly as <https://vietqr.net/> and do not access to any other website addresses to QR code generation for ensure your information security.*

## Step 2

### a. Generate QR code containing the account number only:

Input account information in the [Thông tin thiết lập mã VietQR] (Information about setting up VietQR code) field:

- [Ngân hàng thụ hưởng] (Beneficiary Bank): Choose Public Bank Vietnam from dropdown list or input "PBVN" for quick search
- [Số tài khoản thụ hưởng] (Beneficiary account number): Key in PBVN account number
- [Tên chủ tài khoản] (Beneficiary name): Key in your account name (must be in UPPERCASE)

*Note: Click the button [Agree to display my entire account number at code VietQR] to display full account number on QR code image.*
